

POLICE

To become California's safest large city.

Chapter Overview

This budget chapter reflects key elements of the Police Department's Strategic Business Plan, which was developed as part of the City's commitment to performance management.

As part of this strategic planning process, the Department identified, with input from community stakeholders and employees, significant issues to be confronted over the next two- to five-years. Strategic objectives have also been developed as part of this effort to help guide the Department in addressing these issues. The Police Department has also developed its program structure and a full family of program performance measures, including outcome, efficiency, demand, and output measures. The program structure and performance measures serve as the basis for the City's performance-based program budget and will add clarity to the City's budget by aligning department program information (purpose statement and listing of services), budget allocations, and performance information, all at the program level.

Please note that while the Police Department has completed its Strategic Business Plan, a number of the key performance measures may be new to the Department and will take time to fully develop and collect the performance information. Therefore, some performance measures are presented at this time without the corresponding performance information. As the Department is able to work toward full implementation, existing measures may be changed and/or new ones may be added.

Service Delivery Environment

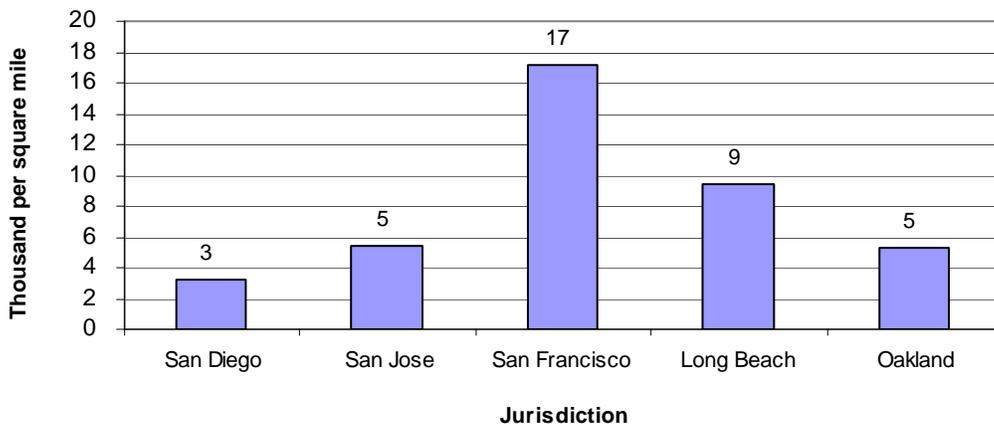

The Long Beach Police Department (LBPD) provides a wide range of law enforcement and security services in a 52-square mile area to approximately 492,000 residents (January 2007 State of California estimate), as well as those who either work in the city of Long Beach, or have chosen Long Beach as a tourist or convention destination. Long Beach is the fifth largest city in the State of California and the second largest city in Los Angeles County. The 2000 United States Census data confirmed that Long Beach was one of the most ethnically diverse cities in the country. A broad spectrum of people in culturally and economically unique neighborhoods, business areas and entertainment districts constitute the customer base of the 1,020 sworn and 498 civilian employees of the LBPD.

The following graphs reflect relevant comparative data for several large California cities, population data is the January 1, 2007 estimate from the State of California, Department of Finance. The Crime statistics are from the FBI's Uniform Crime Report (UCR) for 2005, which is the latest available.

Significant Issues

- Despite the recent decreases in overall crime, increasingly violent behaviors related to gang activity, narcotics sales, juvenile interactions at schools and parks, and sexual predators, and along with increased parolee/probationer recidivism, are creating a community concern about personal safety.
- The growing complexity of law enforcement, the erosion of public confidence in the institutions of government, and the proliferation of information (both accurate and inaccurate) will adversely impact the ability of the Department to engage the community to collaboratively impact community safety; to engender the high level of trust, community support and solicit the honest feedback required to provide effective customer service.
- A nationwide increasingly competitive law enforcement labor market is making, and will continue to make, it increasingly difficult to recruit and retain a qualified and diverse workforce which meets the needs and expectations of the community.
- A growing and unpredictable demand to provide dedicated emergency preparedness, intelligence support and mandated response for terrorism and other disasters will continue to cause a reallocation of Department resources away from primary law enforcement, including investigative/detective services and responses to 911 calls from the general public.
- Changing demographics, including increasing levels of ethnic displacement tension, poverty, density, language barriers, wealth/gentrification, and demands for Police Services to address crime will continue to increase and along with quality of life issues such as graffiti, homelessness and mental illness, which will continue to lead to:
 - Personnel and equipment shortages;
 - Increased personnel overtime, stress and turnover;
 - Potential increases in 9-1-1 response times;
 - A decrease in preventive services (such as PAL, DARE, community outreach); and
 - A demand/need for more innovative and interactive approaches to policing, which involves law enforcement, government agencies and the community.
- The turnover of sworn personnel at all levels, coupled with the decentralized and dispersed operation of the Department will continue to make timely and effective internal communications a significant challenge.

Strategic Objectives

- Ongoing initiatives to increase sworn staffing levels are critical to making major reductions in crime levels. If successful, these initiatives would start a three-year process to recruit, hire, and train new officers. With these officers on the street by the end of calendar year 2013, we will reduce crime by:
 - 26% for Overall Crime (from 38 crimes per 1,000 residents to 28 crimes per 1,000 residents) (Patrol Program; Investigations Program; and Community Relations Program)
 - 50% for Violent Crime (from 8 violent crimes per 1,000 residents to 4 violent crimes per 1,000 residents) (Patrol Program; Investigations Program; and Community Relations Program)

Focus Area: Community Safety; Youth: No

- If the initiatives are unsuccessful, and we are constrained to existing resources, by the end of calendar year 2013 we will reduce crime by:
 - 2% for Overall Crime (from 38 crimes per 1,000 residents to 37.24 crimes per 1,000 residents), assuming current resources
 - 2% for Violent Crime (from 8 violent crimes per 1,000 residents to 7.84 violent crimes per 1,000 residents), assuming current resources

Focus Area: Community Safety; Youth: No

- We will improve public trust and satisfaction as measured by:
 - From 2006-2013, we will maintain an average Priority 1 call response time of 5 minutes or less (Patrol Program and Communications Center Program, partial).

Focus Area: Community Safety; Youth: No

- We will improve the recruitment and retention of a qualified and diverse workforce as measured by:
 - By 2009, we will increase the diversity of the workforce to better reflect the Long Beach community, as indicated by the Equal Employment Opportunity Program Plan (Administration LOB/Program and/or Training Program).
 - From 2006-2013, we will maintain an average annual turnover rate of 5.5% or less for sworn personnel (Administration LOB/Program and Training Program, partial).
 - From 2006-2013, we will improve the average annual vacancy rate for sworn personnel from 6.3% to 3.0% or less for sworn personnel (Administration LOB/Program).

Focus Area: Community Safety; Youth: No

- By 2013 we will increase the percentage of criteria prescribed by the National Response Plan in which we are fully capable to 95% in the following missions:
 - Prevention
 - Protection
 - Response
 - Recovery

Focus Area: Community Safety; Youth: No

- We will address changing demographics and increased service demands by expanding Community Oriented Public Safety in impacted neighborhoods as measured by:
 - This Objective's goal remains To Be Determined and will be based upon 2006 crime statistics when they become available.

Focus Area: Community Safety; Youth: No

Purpose Statement: To provide emergency communication, recordkeeping, adult incarceration, and internal investigation services to the community and Department employees so that the Department can enable the community to feel and be safe.

FY 07 Key Accomplishments:

- The Police Emergency 9-1-1 Center answered over 561,600 calls for service
- 94% of 9-1-1 calls answered within 10 seconds
- 92% of Priority 1 calls dispatched within 2 minutes of call entry
- 70% of violent crime police reports are finalized within 24 hours
- 96% of jail inmate bookings are completed within 15 minutes
- 87% of Internal Affairs investigations are completed within 120 days

Community Oriented Public Safety Emergency (911) Communications Center Program

Focus Area: Community Safety

Line of Business: COPS Police Support Services

Program Purpose Statement: To provide call answering and dispatch services to the public, City personnel and other agencies so they can get their call answered quickly and professionally and receive a timely police response.

Key Services Provided: Emergency and Non-emergency Call Answering and Police Dispatching

FY 08 Funding Source: General Fund 100%

(a) Data not available. Tracking systems being developed to capture data going forward and/or data not available.

Results Narrative:

The adopted budget is a continuation of FY 07 funding levels. These resources will allow the Department to dispatch an estimated 193,000 calls for service, 38,000 of which will be Priority 1 dispatches (violent crimes). With the implementation of wireless 9-1-1, the Police Department expects to answer 730,000 calls, this is a 10 percent increase over the FY 07 level. Without possible adjustments to staffing to handle the increased volume of wireless 9-1-1 calls there will be an 8 percent decrease from the FY 07 target (from 92 percent to 84 percent), in the number of calls answered within 10 seconds. The FY 08 cost per call answered will be approximately \$9.62.

These services will continue to promote the City Council priority to reduce crime, particularly violent crime (Priority 1) by responding to calls for service in a rapid and effective manner.

Community Oriented Public Safety Records Program

Focus Area: Community Safety

Line of Business: COPS Police Support Services

Program Purpose Statement: To provide records processing, safeguarding and distribution services to the public, Police Department staff, other City departments and other governmental entities so they can receive timely and complete information to conduct their business.

Key Services Provided: Records Management, Fingerprint Classification, Warrant Processing, Teletype Exchange of Crime Information, Review and System Entry of all Police Reports

(a) Tracking systems being developed to capture data going forward and/or data not available.

Results Narrative:

The Records Program adopted budget is a continuation of FY 07 resources, which will allow the Department to process an estimated 134,000 police reports and increase the percentage of violent crime reports finalized within 24 hours from 50 percent to 60 percent. Continued funding levels allow the Program to focus on this very important measure that directly contributes to the Department mission to become the safest large city in California.

Significantly, staff reductions sustained in the FY 03 and FY 04 budgets continue to affect the program's ability to meet its performance measures, adding stress to a work unit that has taken on more work for the same level of resources. More specifically, demand (the number of police reports and violent crime reports) will continue to increase even while staffing remains static. The services in this important Program contribute to the City Council Priority to reduce crime and directly correspond to the Community Safety Focus Area.

Community Oriented Public Safety Jail Program

Focus Area: Community Safety

Line of Business: COPS Police Support Services

Program Purpose Statement: To provide prisoner identification, supervision, and care and Police Headquarters public information desk services to inmates, law enforcement agencies, and the public so inmates can be detained in a safe and secure environment, so law enforcement agencies can have a timely and cost effective alternative for booking detainees, and so the public can have convenient access to publicly available local law enforcement related information.

Key Services Provided: Prisoner Booking and Incarceration, Police Headquarters' Business (Public Information) Desk, Public LiveScan Service and Court Bailiffs

(a) Tracking systems being developed to capture data going forward and/or data not available.

Results Narrative:

The adopted budget is a continuation of FY 07 funding, which will provide jail services to an estimated 18,780 prisoners with 93 percent of these bookings completed in 15 minutes or less. During the last three years, the jail population has increased as the number of subjects booked into the Long Beach City Jail has risen from 17,394 in FY 04 to 18,321 in FY 06. The anticipated number of bookings for FY 08 will continue to rise, requiring continuous staffing and services for each inmate detained in our facility including booking, intake and release, property processing, meals (three per day per inmate), medical screening and medical care, identification verification, bedding, providing daily hygiene care items, laundry services, telephone system, visitation services, transportation to other facilities, access and transportation to court, facility maintenance, and adequate housing in a safe environment at an estimated daily cost of \$187 per inmate. Jail services provide an important component of community safety and promote the City Council priority of reducing crime by removing from city streets the individuals arrested for crimes.

Community Oriented Public Safety Internal Affairs Program

Focus Area: Community Safety

Line of Business: COPS Police Support Services

Program Purpose Statement: To provide professional standards, investigative and review services to the community and Department employees so the Department can reduce operational risk and have the timely and complete information to ensure the professionalism, integrity, and accountability of the Department to increase public trust.

Key Services Provided: Complaint investigations, Organizational Review and Internal Audits

(a) Tracking systems being developed to capture data going forward and/or data not available.

Results Narrative:

The adopted budget is a continuation of FY 07 funding, which will provide an estimated 390 investigations of formal complaint at a rate of 70 percent completed within 120 days. It is estimated that the FY 08 cost per investigation will be \$5,346. Internal Affairs has established performance measures that directly reflect the Long Beach Police Department's efforts to ensure the professionalism, integrity and accountability of its employees. These activities help to promote the City Council priority to reduce crime through the maintenance of a professional Police Department, committed to ongoing organizational review and improvement.

Purpose Statement: To provide patrol, traffic, contracted law enforcement, homeland security, youth services and investigative services to the community and/or contracting agencies so they can live, travel, conduct business safely, prepare for, prevent, and/or respond to disasters, and clear criminal cases by reducing crime.

FY 07 Key Accomplishments:

- The total number of crimes for 2006 was 28,929, a 3.4% reduction from 2005 and the lowest number of crimes in 31 years
- Average Priority 1 call response time for 2007 was 4.3 minutes
- 95% percent of National Response Plan prescribed capabilities criteria met in the Prevention, Protection, Response and Recovery areas.
- 53% of violent crime cases cleared in 2007

Community Oriented Public Safety Patrol Program

Focus Area: Community Safety

Line of Business: COPS Crime Suppression

Program Purpose Statement: To provide first response law enforcement problem-solving services to our community so they can feel and be safe.

Key Services Provided: Calls for Service Response, Apprehension and Arrest of Criminal Suspects, Assistance to the Community in Problem-Solving, Marine Patrol, Mental Evaluation Team Response, Nuisance Abatement Services, Police Dog (K-9) Services and Police Helicopter Services.

(a) Tracking systems being developed to capture data going forward and/or data not available.

Results Narrative:

The Patrol Program budget is a continuation of FY 07 funding, which will assist in efforts to directly address the Department's significant issues and strategic objectives. This will allow us to continue to respond to Priority 1 Calls for Service in an average time of 5.0 minutes or less and respond to an estimated 660,000 calls for service at a cost of \$107 per call. Calls for service in the Patrol Program include "self-induced responses", when police officers proactively visit problem properties, initiate contact with community members and conduct follow-up on previous investigations.

The adopted funding maintains current staffing levels on a daily basis. However, under-funding of overtime requirements creates spending overages due to the running of special operations that target violent crime offenders that would reduce the violent crime rate per one thousand residents, another key measure for reducing violent crime (a City Council priority). This also allows field officers some time to proactively focus on criminals and criminal locations, as well as working with community members in solving problems that contribute to criminal activities. The Department considers the activities of the Patrol Program to be a key element of the strategy to reduce crime, particularly violent crime, a priority of the City Council.

Community Oriented Public Safety Traffic Services Program

Focus Area: Community Safety

Line of Business: COPS Crime Suppression

Program Purpose Statement: To provide traffic safety enforcement and investigation services to the community so they can travel safely within the City of Long Beach.

Key Services Provided: Motorcycle Officer Traffic Enforcement, Speed Control Checks, DUI Checkpoints, Traffic Accident Investigations, Parking Enforcement and School Crossing Guards

FY 08 Funding Sources: General Fund 94% and Tidelands Operations Fund 6%

Dollar expenditure per traffic accident investigated	(a)	(a)	(a)	(a)	(a)

(a) Tracking systems being developed to capture data going forward and/or data not available.

Results Narrative:

The adopted budget is a continuation of funding levels from the previous fiscal year. These resources will provide for an estimated 2,150 traffic accident investigations. The number of budgeted full time equivalent staff positions will increase by 7 in FY 08, allowing the Department to provide parking enforcement services in currently under regulated areas of the city. The Program still depends on grant overtime to achieve some of its most important performance measures.

It is important to note that the FY 07 Targeted number of traffic fatalities per 100,000 population was not an accurate estimate. In fact, the actual number of 6.2 per 100,000 population in FY 07 provides the benchmark for the adopted FY 08 target of 6.5 fatalities per 100,000 population. A fully staffed motor section, working traffic violations in FY 03 contributed to a lower fatality rate of 4.6 fatalities per 100,000 population and is recognized as a strategy to improve the fatality rate. Accident Investigation and School Crossing Guard staffing is anticipated to remain adequate to meet FY 08 performance measures. However, Parking Enforcement faces the added responsibility of additional days and hours to enforce parking violations resulting in less coverage for calls for service including school parking problems. The adopted budget provides 7 additional parking enforcement officers in FY 08, and provides for the establishment of a second shift of parking enforcement officers, to extend the hours of enforcement. Traffic operations contribute to a number of City Council priorities, including the reduction of crime, improving the quality of life in neighborhoods and contributing to the efficient and effective movement of goods and people in the city.

Community Oriented Public Safety

Police Services to Outside Agencies Program

Focus Area: Community Safety

Line of Business: COPS Crime Suppression

Program Purpose Statement To provide contracted customized law enforcement and security services to Long Beach City College, Long Beach Transit, Long Beach Unified School District, Long Beach Airport, Port of Long Beach, Long Beach City Hall and Main Library and Los Angeles County Housing Authority (Carmelitos) so they can conduct their business and deliver their services in a safe and peaceful environment.

Key Services Provided: Long Beach Transit Security, Long Beach City College Security, Los Angeles County Housing Authority Security, Long Beach Unified School District School Resource Officer Program, Long Beach Airport Security, Long Beach Harbor Security, City Hall/Main Library Security and Special Events Security

Dollar expenditure per hour of police service provided by contract	(a)	(a)	54.96	(a)	55.84

(a) Tracking systems being developed to capture data going forward and/or data not available.

Results Narrative:

The adopted budget is essentially a continuation of funding from FY 07, which will provide for an estimated 200,000 police hours to outside agencies, about the same as FY 07. There is sufficient staffing to meet the Police Department's contractual security obligations, with the following exceptions. During Homeland Security alerts for the Airport and the Harbor, additional responsibility is added that requires the use of overtime to supplement the existing staffing. It has been difficult to retain Special Services Officers for the Long Beach City College unit, who provide limited law enforcement duties, because they leave for better paying positions elsewhere in the City. A pay grade increase may have to be implemented to maintain long-term retention. Additional funding will be required for the Civic Center/Library security functions, with the increase of Library hours and the greater security demands for City Hall and Council meetings. Providing police services to outside agencies not only promotes the City Council priority to reduce crime and maintain public safety at agencies near or within Long Beach. The Department will strive to achieve 100 percent cost recovery for these contracts in line with the City Council's Financial Policy on User Fees.

Community Oriented Public Safety Homeland Security Services Program

Focus Area: Community Safety

Line of Business: COPS Crime Suppression

Program Purpose Statement: To provide planning, intelligence, equipping, and training and liaison services to the Long Beach Police Department, other City departments, outside agencies and the community so they can prepare for, prevent, respond to and recover from both natural and man-made disasters.

Key Services Provided: Airport Security, Port/Harbor Security, Counter-Terrorism Liaison with Federal and State Agencies, Training and Investigations.

(a) Data not available. Tracking systems being developed to capture data going forward and/or data not available.

Results Narrative:

The adopted budget is a decrease in funding from past years due to the UASI grant expiration. These resources will provide approximately 2,500 participant hours of Homeland Security training at a cost of an estimated \$418 per training participant hour completed. Additionally, the Department will strive to meet 95 percent of the criteria of the National Response Plan for all areas. The Homeland Security Program will use State and federal grant funding, as well as some General Fund Support, to educate, equip and train front line law enforcement personnel to work with other City employees and members of the community to prepare for, prevent, protect against, respond to and recover from both natural and man-made disasters. This will involve training all supervisors and above on National Incident Management System management protocols; working with other public safety agencies to improve intelligence gathering and sharing; collaborating with both the public and private sector to increase protection of critical infrastructure, developing and exercising disaster response plans; and, developing government/business continuity. These activities will continue to promote the City Council priorities of public safety and support for programs that encourage the public's health and well being.

Community Oriented Public Safety Investigations Program

Focus Area: Community Safety

Line of Business: COPS Crime Suppression

Program Purpose Statement: To provide youth services, criminal investigations, and investigative support services to the community, Long Beach Police Department, other City departments and other agencies so they can have criminal cases cleared and a reduction of adult and juvenile crime.

Key Services Provided: Criminal Investigations, Suspect Arrests and Prosecution of Suspected Criminals

(a) Tracking systems being developed to capture data going forward and/or data not available.

Results Narrative:

The Investigations Program adopted budget will allow the Department to meet established realistic and meaningful performance measures, which directly address the Department's significant issues and strategic objectives. This includes the assignment of an estimated 32,112 cases at a cost of \$889 per case assigned. The Department will also focus resources on raising the percentage of violent crime cases cleared (compared to the State standard) from the 40 percent target in FY 07 to 41 percent in FY 08. Furthermore, our professional service will focus on reducing violent crime and enhancing public trust, while instilling a cooperative effort within the Department and in support of other City activities. Furthermore, a steady increase in the City's population, commercial and residential redevelopment and a drastic rise in the need for policing services continue to strain Department services. All of these services contribute to the City Council priority of reducing crime and improving the quality of life in the neighborhoods through the thorough investigation and resolution of criminal cases.

Community Oriented Public Safety Youth Services Program

Focus Area: Youth

Line of Business: COPS Crime Suppression

Program Purpose Statement: To provide truancy patrol, on-campus security, investigations, detention, and intervention services to the Long Beach Police Department, the Long Beach Unified School District, and the community so they can positively impact the community's young people and reduce truancy and related juvenile crime.

Key Services Provided: J-Car Truancy Patrols, School Resource Officers, Juvenile Arrests/Citations, Juvenile Detentions, Juvenile Case Investigations, Missing Persons Investigations, PAL Interventions and Police Explorers

(a) Tracking systems being developed to capture data going forward and/or data not available.

Results Narrative:

The Youth Services Program is budgeted for a continuation of FY 07 resources. This funding will allow the Youth Services Program to meet realistic and meaningful performance measures, and enable us to meet established performance measures, which directly address the community and Department's issues and concerns regarding the young people in our community. This includes a slight reduction of juvenile cases assigned from 7,133 in FY 07 to 7,000 in FY 08 at a cost of approximately \$872 per case. Nonetheless, the Department will strive to lower the juvenile crime rate within a half-mile radius of the five major high schools to 588 crimes (for the period of time from 1:00 PM to 4:00 PM), a priority of the Department. The Youth Services Program is unique in that it not only provides enforcement action in the area of juvenile crime investigations, truancy patrol, campus security; but is also very active in the area of intervention and prevention, with programs such as the Police Athletic League. These activities contribute to the City Council priority to reduce crime and improve the quality of life in neighborhoods (particularly around our City's high schools) and to promote the health and well being of our City's youth.

Purpose Statement: To provide community relations and training services to the community, the media, and Police Department employees so they can become involved in crime reduction and safety enhancing activities which enhance the trust and confidence in the skilled personnel providing police services in Long Beach.

FY 07 Key Accomplishments:

- Graduated 66 new Police Officers from the Police Academy in December 2006
- Graduated 42 new Police Officers from the Police Academy in July 2007
- The Neighborhood Watch program has 295 neighborhood watch groups.
- Conducted 86 Crime Prevention Through Environmental Design (CPTED) inspections to local businesses and residences resulting in more attractive properties and deterring crime.
- Police Department Volunteers provided over 57,100 hours of service to the Department.
- 83% of residents and/or customers have a favorable or very favorable impression of the (i.e. trust in) Long Beach Police Department, based on a community survey.

a) Tracking systems being developed to capture data going forward and/or data not available.

Results Narrative:

The adopted budget is a continuation of funding from the previous year. The Community Relations Program performance measures reflect the Police Department's efforts to educate the public on how they can reduce crime in their neighborhood and to effectively communicate the Department's commitment to solving community problems and to building positive working relationships. In particular, these resources will be used to successfully support 300 Neighborhood Watch groups through continued community outreach, including a newly developed pilot program aimed at implementing the Neighborhood Watch Program into areas with active neighborhood associations, at an estimated cost of \$4.13 per capita. The Department will also strive to maintain the percentage of residents with favorable or very favorable impressions of the Long Beach Police Department at 83 percent. The Program is expanding marketing efforts to the community and the media to highlight Department successes and innovative problem solving. These marketing and outreach strategies will help to improve community safety by increasing awareness and involvement in the Department's crime prevention and crime reduction efforts, promoting the City Council priority to reduce crime and expand the community's involvement in the workings of Long Beach government (through neighborhood watch). This will also help to ensure that our community feels safe and has a high level of trust and confidence in the Long Beach Police Department when the survey is conducted in the future.

Community Oriented Public Safety Training Program

Focus Area: Community Safety

Line of Business: COPS Communication and Education

Program Purpose Statement: To provide recruitment/selection of sworn personnel, along with basic, advanced, and ongoing specialized training services to all Long Beach Police personnel so they can be properly and appropriately trained to meet the standards for service delivery to the community.

Key Services Provided: Recruit Training Academies, Advanced Officer Training Course (AOTC) Classes, External Training Courses and Police Range

Results Narrative:

The adopted budget is a continuation of funding from FY 07, which will provide the community with an estimated 47 Police Academy graduates at a cost of \$31,066 per recruit graduated. These resources will also help to ensure 100 percent compliance for ongoing training. While two academies were completed in FY 07 (explaining the high number of graduates in FY 07), it is anticipated that the Training Program will meet the FY 08 key performances measures related to hiring police recruits, even though the number will be less than the previous year. These new officers are needed to provide proper staffing levels for public safety. The Training Program contributes directly to the City Council priority of reducing crime by equipping law enforcement officers in Long Beach with the highest level of standards and training.

(a) Tracking systems being developed to capture data going forward and/or data not available.

Results Narrative:

The adopted budget continues funding from FY 07, which will allow the Department to continue to address its vacancy rate through the hiring and training of high quality staff, and make strides toward bringing overtime costs under control. In FY 07, the Department further stabilized its workforce with full staffing. While the need for overtime is often unpredictable (e.g., responding to special events and incidents), city leadership hopes that full staffing levels will lead to a significant reduction in call back overtime as a percentage of total salaries. Additionally, the Administration Program will be challenged in managing the Police Department's Employee Health and Safety program due to a lack of a full time Safety Officer. Maintaining fully staffed Personnel and Fiscal Divisions will be difficult due to large workloads. These shortages may result in increased overtime usage in order to keep up with the demands of payroll input, invoice payments and financial reporting.
