

Provider Steps for Zika Testing

Determine whether patient meets testing requirements by reviewing Zika Testing Algorithm.*
All patients must be evaluated by a healthcare provider prior to testing for Zika.

Report to Long Beach Health Department's Epidemiology Program by calling 562.570.4302

Complete Zika Report Form* and fax to 562.570.4374

If sending specimen(s) to a commercial lab, please refer to the Ordering and Interpreting Zika Tests form*. Regardless of lab results (positive or negative) immediately fax results to the Long Beach Health Department at 562.570.4374.

If requesting testing from Long Beach Health Department, the Epidemiology Program will contact patient directly to schedule an appointment for Zika testing. Laboratory results will be faxed to provider.

If sending specimen(s) to the Long Beach Health Department Laboratory for testing, please refer to the Ordering and Interpreting Zika Tests form*. Laboratory results will be faxed to the provider.
