

**CITY OF LONG BEACH  
CLASSIFICATION SPECIFICATION**

---

**TITLE: POWER EQUIPMENT REPAIR MECHANIC I**

**DEFINITION:** Under general supervision, maintains and repairs fractional horse-power gasoline engines used to power garden tractors, lawn mowers and edgers, lawn sweepers, chain saws, generators, pumps, and similar equipment.

**EXAMPLES OF DUTIES:**

- Inspects equipment, diagnoses trouble and determines extent of necessary repairs;
- Dismantles equipment and engines and repairs or replaces defective parts;
- Cleans and adjusts carburetors and magnetos;
- Maintains and repairs lawn mower sharpening, lapping and cutter-bar grinder machines;
- Maintains and repairs a wide variety of hand and power tools such as saws, pruners, shears, rakes, cultivators, sprayers, etc.;
- Sharpens saws, mower blades and other cutting tools;
- Orders, receives, stores and inventories parts for all engines, equipment and tools maintained;
- May supervise other shop personnel;
- Perform other related duties as required.

**MINIMUM REQUIREMENTS:**

Two years in the repair and maintenance of fractional horsepower engines used to power garden tractors, lawn mowers, lawn sweepers, chain saws, and similar equipment and maintenance of hand and power tools, such as chain saws, mower blades and various cutting tools.

A valid motor vehicle operator license or temporary permit.
