**Note:** The 90-day appeal period in which you may protest any fees, dedications, reservations or other exactions will begin from the approved date as indicated on the plumbing permit, which describes the fees, dedications, reservations, or other exactions. **INSTRUCTIONS:**

1. Specify the total number of fixtures to be installed (+) and/or demolished (-) in the “# of New Fixtures” and “# of Demo Fixtures” columns for each type of fixtures.
2. “Total EFU” for each type of fixtures is determined by multiplying the Equivalent Fixture Unit<sup>4</sup> (EFU) rate (which depends on if the fixture is for private, public or assembly use) by the “# of New Fixtures”. Where applicable, the “# of Demo Fixtures” will can be used to offset the “# of New Fixtures”. Private = residential use, Public = commercial use, Assembly = place of gathering for civic, recreational, food consumption, etc.
3. “Total Project EFU” is the sum of all the “Total EFU” for each type of the fixtures.
4. “Capacity Charge” is determined by multiplying the “Total Project EFU” by the current capacity rate (\$ per EFU) as adopted by resolution of the Board of Water Commissioners.
5. “Surcharge” is determined by multiplying the “Capacity Charge” by 1.5 percent<sup>2</sup>.
6. The sum of the “Capacity Charge” and “Surcharge” are the total fees due at the time the plumbing permit is issued.
7. The fixture information provided herein will be verified and the final “Capacity Charge” and “Surcharge” will be determined by staff at the end of the plumbing plan review or prior to the issuance of the plumbing permit<sup>1</sup>.
