Re: AB-52 Consultation with the Gabrieleno-Tongva Tribe for the 3311 E. Willow Street Adult Day Care Facility Project

Dear Mr. Acuna:

The City of Long Beach is conducting its AB-52 consultation process for the 3311 E. Willow Street Adult Day Care Facility Project. Please consider this letter and preliminary Project information as the initiation of the California Environmental Quality Act, specifically Public Resources Code 21080.3.1 and Chapter 532 Statutes of 2014 (i.e., AB-52). Please respond within 30 days, pursuant to PRC 21080.3.1(d) if you would like to consult on this Project.

PROJECT TITLE: 3311 E. Willow Street Adult Day Care Facility Project

PROJECT LOCATION: 3311 E. Willow Street, Long Beach, California

PROJECT DESCRIPTION: The proposed Adult Day Care facility site, located at 3311 E. Willow Street between Redondo and Temple Avenues, is improved with a currently vacant 3,960 square-foot medical office building. The proposed project would utilize all 3,960 square-feet with the following components: three offices, media room, conference rooms, library/IPAD room, salon, arts and craft room, locker, staff lounge, kitchen, three restrooms, storage space, and reception area. Vehicular access to the project site is provided via a “right-turn in only” driveway on Willow Street and an existing alley. A Mitigated Negative Declaration will be prepared for this project.

Your comments and concerns are important to the City of Long Beach in moving forward with this Project. If you have any questions or concerns with the Project, please contact me at:

RE: AB52 consultation response for 3311 E. Willow Street Adult Day Care Facility Project  

Hello Craig,  

Jan 10, 2016  

Please find this letter in response to your request for consultation dated Jan 5, 2016. I have reviewed the project site and do have concerns for cultural resources. Your project lies in an area where the Ancestral territories of the Kizh (Kite) Gabrieleño's villages adjoined and overlapped with each other, at least during the Late Prehistoric and Protohistoric Periods. The homeland of the Kizh Gabrieleño was probably the most influential Native American group in aboriginal southern California (Bean and Smith 1978a:538), was centered in the Los Angeles Basin, and reached as far east as the San Bernardino-Riverside area. The homeland of our neighbors the Serranas was primarily the San Bernardino Mountains, including the slopes and lowlands on the north and south flanks. Whatever the linguistic affiliation, Native Americans in and around the project area exhibited similar organization and resource procurement strategies. Villages were based on clan or lineage groups. Their home base sites are marked by midden deposits often with bedrock mortars. During their seasonal rounds to exploit plant resources, small groups would migrate within their traditional territory in search of specific plants and animals. Their gathering strategies of ten left behind signs of special use sites, usually grinding slicks on bedrock boulders, at the locations of the resources.

Due to the project location and the high sensitivity of the area location, we would like to request one of our certified Native American Monitor to be on site during any and all ground disturbances (including but not limited to pavement removal, post holing, auguring, boring, grading, excavation and trenching) to protect any cultural resources which may be affected during construction or development. In all cases, when the Native American Heritage Commission states there are “no records of sacred sites in the project area” the NAHC will always refer lead agencies to the respective Native American Tribe because the NAHC is only aware of general information and are not the experts on each California Tribe. Our Elder Committee & Tribal Historians are the experts for our Tribe and are able to provide a more complete history (both written and oral) regarding the location of historic villages, trade routes, cemeteries and sacred/religious sites in the project area. While the property may be located in an area that has been previously developed, numerous examples can be shared to show that there still is a possibility that unknown, yet significant, cultural resources will be encountered during ground disturbance activities. Please note, if they haven't been listed with the NAHC, it doesn't mean that they aren't there. Not everyone reports what they know.

The recent implementation of AB52 dictates that lead agencies consult with Native American Tribes who can prove and document traditional and cultural affiliation with the area of said project in order to protect cultural resources. However, our tribe is connected Ancestrally to this project location area, what does Ancestrally or Ancestral mean? The people who were in your family in past times. Of, belonging to, inherited from, or denoting an ancestor or ancestors  

Our priorities are to avoid and protect without delay or conflicts – to consult with you to avoid unnecessary destruction of cultural and biological resources, but also to protect what resources still exist at the project site for the benefit and education of future generations. At your convenience we can Consultation either by Phone or Face to face. Thank you

CC: NAHC

Andrew Salas, Chairman
