Appendix H: Service Provider Responses
Midtown Specific Plan

Fire Service Questionnaire

1. LBFD does cover the entire project site.
2. The LBFD has mutual aid agreements with various Fire departments throughout the State of California in accordance with the State of California Mutual Aid Plan.
3. Sta. 3—Engine and Rescue with 6 staff. Sta. 7—Engine and Truck with 8 staff. Sta. 9—Engine and Rescue with 6 staff. Sta. 10—Engine and Rescue with 6 staff.
4. LBFD uses NFPA 1710 as our Standard
5. 4:17 seconds for emergency responses citywide.
6. Yes
7. None
8. Anytime you add residents, there will be a corresponding increase in calls for service to that area. These Fire Stations that are in this area, are already our busiest in the City of Long Beach. The Rescues that serve this area are also extremely busy. With this increase of population and workload, at the very least, a Rescue unit should be added to Fire Station 7.
9. The addition of residents will strain an already very busy system. The Engine Companies and Rescue Units that serve this area are the busiest in the City. The rescue units that serve this area are already responding on over 15 calls for service, per 24 hour period. Our goal is for them to be in the 10 calls for service range, per 24 hours shift period.
10. N/A
