

SCALE: NONE

NOTE: Use of backhoe or axe to shave roots is prohibited.

NOTES

NOTES FOR ROOT SHAVING.

1. The Contractor shall shave tree roots to provide 100 mm (4") clearance below bottom grade and 100 mm (4") clearance on either side of new or replacement sidewalk and/or curb.
2. Root shaving shall be performed with a machine using a City approved vertical cutting wheel or Horizontal blade. The wheel shall be no larger than 350 mm (14"), with cutter teeth. If a vertical wheel is used, root shaving shall be done with a horizontal side to side motion.

NOTE TO CONTRACTOR

Failure to adhere to this standard plan will result that the contractor shall replace the damaged tree with a compatible tree.

Dimensions are in millimeters, except as noted.
