

I am a product of the Long Beach Unified School District attending Stephens, Long Beach Poly, LBCC, and earned my master's degree from CSULB in Public Administration.

I was a successful business owner in downtown Long Beach for 15 years and currently serve as a Commissioner for the County of Los Angeles.

I am a breast cancer survivor and understand the importance of health issues and their impact on our communities' families.

I want this city to be equitable, inclusionary, and safe for everyone.

My priorities are:

Healthcare - COVID-19

- Increase healthcare accessibility/affordability
- Expand Contact Tracing
- Protect frontline workers and high-risk communities

Police Reform

- Strengthen the Citizen Police Complaint Commission
- Implement a process to identify patterns of misconduct
- Reallocate funds from LBPD to departments that are better equipped to handle social issues

Housing for All

- Build more affordable housing
- Support rent control and strengthen tenant protection laws
- Increase shelter capacity and build more transitional housing

I am honored to be supported by Mayor Robert Garcia, Senator Lena Gonzalez, Former Mayor Bob Foster, Supervisor Janice Hahn, the LA County Federation of Labor, the Long Beach Firefighters Association, and the Teachers Association of Long Beach.
