

It has been my honor and privilege to serve the students, parents, staff and communities of Long Beach, Signal Hill and Catalina Island for many years. My experience as a classroom teacher, coach and principal of elementary, middle and high schools provided me a solid perspective that I have relied upon to create and support successful school district policies. Few school districts can boast of the national and international acclaim that LBUSD has earned in recent years. It is even more unusual to have a superintendent and school board with such stability as we have enjoyed in LBUSD over more than a decade. When you have an outstanding superintendent such as Chris Steinhauer, an exemplary teaching and support staff, and a school board whose top priorities are student safety and achievement, then you have an award winning school district. LBUSD is indeed recognized as a model of excellence among large, urban school systems. I encourage you to help sustain educational excellence by electing me to another term as your board member. Your vote for me will help to preserve the stability of our school board as we build upon the enviable achievements of our students and schools.
