

Long Beach City Council, 8th District

Wesley Turnbow

Occupation: Small Business Owner

Age: 47

As a Long Beach native, 4th generation in my family to call the 8th District home, husband of 22 years, and father of six children, my commitment to the success and safety of our city and the 8th District is very personal to me.

As a dedicated community leader, I have been a member of my neighborhood association and local PTA for over 10 years and know the importance of community involvement in our neighborhoods and schools. I will bring that commitment to community leadership to the Long Beach City Council.

I have degrees in business and law from the University of Southern California, am a former CPA, owner of a local aerospace company and current President of the Metal Finishing Association of Southern California. Applying my education, community knowledge and practical experience, I will lead the city council in making fiscally responsible decisions that improve public safety and strengthen our local economy.

With your vote, together, we can bring about responsible solutions to the financial challenges facing our city and reverse the rising trend in violent crime. Please visit www.wesleyturnbow.com or call (562) 424-1307 for additional information.
