Re: Support for AB 391 (Chiu)—Medi-Cal: Asthma Preventive Services

Dear Governor Brown,

On behalf of the City of Long Beach, I write to affirm the City's support of Assembly Bill 391 (Chiu). This bill would make asthma preventive services more accessible to the State's most vulnerable populations by providing the State Department of Health Care Services (DHCS) with statutory authority to issue reimbursements for qualified service providers, so long as the services have been initially recommended by a licensed practitioner.

Currently, more than five million Californians have been diagnosed with asthma. This respiratory condition is of special concern to low-income Californians, who may be enrolled in Medi-Cal. The City of Long Beach recognizes the need for comprehensive asthma preventative services in our region and has partnered with local service providers and the Port of Long Beach to improve the livability of neighborhoods and homes along the major freeways. Long Beach looks forward to the passage of AB 391 so that these asthma service providers may have the resources to offer a wider range of asthma preventative education services.

Customized home visit assessments and health education programs such as the Asthma Life Skills Academy (ALSAA) and the Community Asthma and Air Quality Education (CAARE) are critical to improving the health of families living along freeways and goods movement corridors. AB 391 will increase access for Medi-Cal beneficiaries to asthma education and home environmental asthma trigger assessments by enabling DHCS to cover these services that fall outside of the state's clinical licensure system. If additional Medi-Cal resources are made available, the ALSAA and CAARE programs could be even more impactful in Long Beach.

Given these reasons, the City of Long Beach requests your signature on AB 391 (Chiu).

Sincerely,

A handwritten signature in blue ink, appearing to read "Robert Garcia".

Mayor Robert Garcia
