And Finally

Unanimous City Council Support for Fire Engine 17

Following up on last week's "And Finally" feature, we had a very positive outcome on Tuesday's City Council agenda item. The recommendation was to direct the City Manager to apply for a SAFER Grant from FEMA. The grant of \$4.8 million will cover half the cost of operating Fire Engine 17 for a period of three years. The result of the council vote was unanimous (9-0) in support the grant application. The next step will be to identify full funding for E17's operation as a contingency to the grant not being awarded to LBFD. The photos below of Engine 17's crews were taken 68 years apart... October 1951 and October 2019. Keeping E17 in service has always been critically important to the safety of our residents. However, with call volumes continuing to rise each year, Engine 17's continued operation is more critical now than ever.
