Happy Native American Heritage Day

Today, the Friday after Thanksgiving, is a special day for Native people and communities across the United States. It is the pinnacle of the 30-day Native American Indian Heritage Month, where we celebrate and acknowledge the rich and diverse histories, traditions and contributions of our nation's original

inhabitants and their descendants. Native American Heritage Day and Month is also a fitting time to learn more about Native cultures as well as the distinct challenges that Native people have faced both historically and presently. For Long Beach, it's also a time to celebrate the support we have garnered as we continue to pursue the creation of our own Native American Commission.

Native American Heritage Day and Month

On this Native American Heritage Day, Long Beach can reflect on its celebration of Native American Heritage Month. Specific to Council District 4, we hosted our annual Native American Celebration at City Hall and continued our progress on creating a Long Beach Native American Commission. CD4 is home to the Puvungna sacred site adjacent to the CSULB campus, and Native American celebration events took place on the campus during November. Rancho Los Alamitos, also in CD4, has created an audio tour focusing on Puvungna that is available [here](#).

Long Beach is also home to Will Rogers Middle School. Many are not aware that Will Rogers, the vaudeville performer, actor, radio star, syndicated columnist and humorous social commentator, was a Native American. He was born in 1879 as a citizen of the Cherokee Nation in Oologah, Indian Territory (now Oklahoma). His story is part of my presentation at Sunnyside Cemetery each year at my grandparent's grave. My grandfather was born in 1878 in Skiatook, Indian Territory, on the Osage Reservation just 20 miles west of the Rogers' home. There is 98-year-old quote from Will Rodgers that perfectly summarizes why we celebrate Native American Heritage today. When asked for proof that he was an American in order to obtain a passport (ironically to travel to Europe) he responded, "My ancestors didn't get here on the Mayflower, but they did meet the boat when it arrived".
