PANDEMIC RESPONSE AND RECOVERY PROGRAMS MADE POSSIBLE BY STATE CARES ACT ALLOCATION

HE HOO AND ADDRESS OF THE ME SUFFINITION OF THE SUF	esponse comeless Sheltering cousing Condition Improvements disic Needs - Case Managers and Insecurity and Meals for At-Risk and Senior Populations ack Education Health Program der Adults Supports	Offset the costs of City emergency response from March - December 2020, including staff costs not eligible for other funding. Total Cost City COVID Response COMMUNITY SUPPORT - Recovery & Resiliency Covers the congregate shelters like Silverado which are not FEMA eligible. Additional costs for navigation center (12 bed shelter for youth) and year-round shelter Housing conditions exacerbate illnesses most related to COVID-19. This would include mold remediation, air ventilation, etc. in housing with greatest code enforcement complaints/largest overcrowding issues. Funds would go to remediation services. The current warm line model for older adults helps connect people to resources. This expanded model includes staff support for responding to calls and helping to access needed services such as food, housing, insurance, cooling supports, other medical supports etc. Funds would support large one-time food distribution events, as well as, food delivery program for seniors and at-risk residents. Program to allow engagement with community organizations serving Black residents and grants to Community Based Organizations (CBO) to build capacity to provide education, outreach, and health supports. Financial support for the purchase of black out curtains, transportation to cooling centers, food and medication delivery from local grocery stores, close-looped referral technology to support older adult/warm-line referrals, mental health supports.
