☐ Other:____________________

LABORATORY INFORMATION

Nasal pharyngeal swab: Date of Collection: _______________ Result: _________________
Oropharyngeal swab: Date of Collection: _______________ Result: _________________

EPIDEMIOLOGY RISK FACTORS

☐ Close contact* with a laboratory-confirmed COVID-19 patient

- *Close contact is defined as: a) being within approximately 6 feet (2 meters) or within the room or care area for a prolonged period of time (e.g., healthcare personnel, household members) while not wearing recommended personal protective equipment (i.e., gowns, gloves, respirator, eye protection); or b) having direct contact with infectious secretions (e.g., being coughed on) while not wearing recommended personal protective equipment. Data to inform the definition of close contact are limited. At this time, brief interactions, such as walking by a person, are considered low risk and do not constitute close contact.*

☐ Travel history to affected geographic areas: (City/Region/Province/State/Country): ____________________

See current list: https://www.cdc.gov/coronavirus/2019-ncov/hcp/clinical-criteria.html

Dates of Travel: To:______________ From:________________ Arrived in U.S.: ______________________

☐ No known identifiable source

Send this completed form to the Communicable Disease Control Program within 24 hours of receiving positive results: Fax to 562.570.4374 or Secure Email to LBEpi@longbeach.gov
