

SAFER AT HOME ORDER FOR CONTROL OF COVID-19

Temporary Prohibition of Events and Gatherings of 10 Persons or More

Closure of Non-Essential Retail Businesses

DATE ORDER ISSUED: March 24, 2020

Please read this Order carefully. Violation of or failure to comply with this Order is a crime punishable by fine, imprisonment, or both. (Ca. Health & Safety Code § 120275)

Summary: This Health Officer Order amends and supersedes the Orders of the Long Beach Health Officer (Health Officer) issued on March 12, March 16, March 19, and March 20, 2020, to control the spread of the Novel Coronavirus (COVID-19) within the City of Long Beach (City). This Revised Order is issued to comply with Executive Order N-33-20 issued by Governor Gavin Newsom, wherein the State Public Health Officer ordered all individuals living in the State of California to stay home or at their place of residence, except as needed to maintain continuity of operations of the federal critical infrastructure sectors. Further, this Order extends the closure of certain businesses required by the Health Officer's March 20, 2020 Order.

Due to the continued rapid spread of the Novel Coronavirus (COVID-19) and the need to protect the most vulnerable members of our community, this Order prohibits all indoor and outdoor public and private gatherings and events. This Order specifically requires all businesses to cease in-person operations and close to the public, unless the business is defined as an Essential Business by this Order. This Order applies within the City, effective immediately and continues through April 19, 2020, subject to the terms and conditions more particularly set forth below.

For all Essential Businesses, the Health Officer orders those businesses to take the following infection control precautions:

1. Practice social distancing within the confined space by requiring attendees to be separated by six (6) feet;
2. Provide access to hand washing facilities with soap and water or hand sanitizer that contains at least 60% alcohol;
3. Post a sign in a conspicuous place at the public entry to the venue instructing members of the public to not attend if they are experiencing symptoms of respiratory illness, including fever or cough; and
4. Adhere to communicable disease control recommendations provided by the Long Beach Department of Public Health and Human Services and the Center for Disease Control (CDC).

As a point of clarity, this Order does not prohibit any individual or household members from outdoor activities (including with pets), as an individual or as household members, such as hiking, walking, shopping at Essential Businesses, including grocery stores and restaurants offering delivery, drive thru, or carry out service, so long as all persons practice social distancing to the extent practicable.

Further, this Health Officer Order requires all indoor malls and shopping centers, all swap meets and flea markets, all indoor and outdoor playgrounds and all non-essential businesses to close.

The Health Officer will continue to monitor the rate of COVID-19 disease spread, the severity of the resulting illnesses and deaths caused, California Department of Public Health (CDPH) and Centers for Disease Control and Prevention (CDC) recommendations, and the effect of this Order. If needed, this Order may be extended, expanded, or otherwise modified to protect the public's health.

UNDER THE AUTHORITY OF CALIFORNIA HEALTH AND SAFETY CODE SECTIONS 101040, 101085, AND 120175, THE HEALTH OFFICER OF THE CITY OF LONG BEACH ORDERS:

All persons are to remain at their place of residence, except to travel to and from Essential Businesses, to work at or provide service to a Healthcare Operation or Essential Infrastructure, to engage in Essential Activities, provided that Social Distancing Requirements are practiced.

The interior of the Indoor Mall or Indoor Shopping Center shall remain closed to the public.

5. The Health Officer strongly recommends that employers within the City support CDC recommend guidelines for handwashing by allowing employees sufficient time to regularly clean and/or wash their hands.

REASONS FOR THE ORDER

6. This Order is based upon scientific evidence and best practices, as currently known and available, to protect members of the public from avoidable risk of serious illness and death resulting from the spread of COVID-19, as well as to protect the healthcare system from a surge of cases into its emergency rooms and hospitals. The Order supports the CDC's efforts to institute more stringent and necessary social distancing measures to reduce community transmission of COVID-19.
7. Existing community transmission of COVID-19 in the City presents a substantial and significant risk of harm to the health of residents. Currently, there is no vaccine available to protect against and no specific treatment for COVID-19. As of March 24, 2020, there have been at least 28 cases of COVID-19 and 1 death reported in the City of Long Beach, and 536 cases of COVID-19 and 6 deaths reported in Los Angeles County. There remains a strong likelihood of a significant and increasing number of suspected cases of community transmission.
8. The virus that causes COVID-19 can be spread easily through person-to-person contact. This risk of transmission is increased when people are in close proximity. All gatherings pose an increased risk for community transmission of COVID-19 and thus, are a substantial risk to public health.

As such, places where people gather, such as Indoor Malls and Shopping Centers, Swap Meets and Flea Markets, Children's Playgrounds, and Non-Essential Retail Businesses, provide significant opportunities for patrons or groups of patrons to have close contact with each other. Characteristics of these gatherings that are likely to exacerbate the spread of COVID-19 include, without limitation: (a) that these gatherings and businesses will attract people from throughout the City and county

when there is widespread COVID-19 community transmission, (b) the prolonged time period during which many people are in close proximity at these locations, (c) the difficulty in tracing and controlling additional exposures when large numbers of people visit these places, and (d) visitors may be unknowingly infected with COVID-19 and may not follow adequate hygienic and social distancing practices.

9. In the absence of a specific immunization or treatment for COVID-19, social distancing is essential to preventing this disease. Increasing social distancing and prohibiting events and gatherings is intended to slow transmission of COVID-19. Accordingly, to reduce the community transmission of COVID-19, the Health Officer has ordered the temporary prohibition of all events and gatherings and the closure of commercial properties and businesses, as described in Section 3 of this Order.
