HEALTH OFFICER ORDER FOR THE CONTROL OF COVID-19

Quarantine Order

Revised Order Issued: April 21, 2022

This Order supersedes the prior Quarantine Order issued by the Long Beach Health Officer (Health Officer) on January 18, 2022. This Order is in effect until rescinded in writing by the Health Officer.

A digital copy of this Order may be found at www.longbeach.gov/covid19 or by scanning the QR Code below.

UNDER THE AUTHORITY OF THE CALIFORNIA HEALTH AND SAFETY CODE SECTIONS 101040, 101085, 120175, 120215, 120220, AND 120225 THE CITY OF LONG BEACH HEALTH OFFICER ORDERS:

I. Definitions. For purposes of this Order, the following definitions apply:

A. “Asymptomatic” means that the person does not develop symptoms of COVID-19.

B. “Booster” means an additional dose of the COVID-19 vaccine received after a person completes the primary COVID-19 vaccination series.

C. “Boosted” means a person that has received an additional dose of the COVID-19 vaccine received after a person completes the primary COVID-19 vaccination series.

D. “Close Contact” is any of the following people who were exposed to a COVID-19 positive person:
   1. A person who shared the same indoor airspace (e.g., home, clinic waiting room, airplane) for a cumulative total of 15 minutes or more over a 24-hour period with a COVID-19 positive person during their infectious period.

   2. A person who had unprotected contact with a COVID-19 positive person’s body fluids and/or secretions, such as, hugs or kisses, being coughed or sneezed on, sharing cups or utensils, or providing care without wearing appropriate protective equipment (e.g. facemask and gloves).
E. “COVID-19 Symptoms” means fever or chills, cough, shortness of breath or difficulty breathing, fatigue, muscle or body aches, headache, new loss of taste or smell, sore throat, congestion or runny nose, nausea or vomiting, or diarrhea.

F. “Fully Vaccinated Person” or “Fully Vaccinated” is a person that has completed their primary COVID-19 vaccination series (i.e., is more than 2 weeks following receipt of the second dose in a 2-dose series COVID-19 vaccine, or more than 2 weeks following receipt of one dose of a single-dose COVID-19 vaccine).

II. No Quarantine for Close Contacts Exposed to COVID-19 Regardless of Vaccination Status.

The following requirements shall apply to all Close Contacts, regardless of vaccination status, who are not subject to the requirements of Section III of this Order:

A. Regardless of vaccination status, Close Contacts do not need to quarantine as long as they remain asymptomatic.

B. Close Contacts may choose to quarantine to limit their possible exposure to other people.

C. It is recommended that Close Contacts test within 3-5 days after last exposure.

D. Close Contacts are strongly recommended to wear a well-fitting mask around others for a total of 10 days, especially in indoor settings and when near those at higher risk for severe disease.

E. Any person that experiences symptoms of COVID-19 should self-isolate immediately and test as soon as possible. If positive for COVID-19, such individuals must comply with Section V of this Order.

III. Quarantine for Certain High-Risk Settings.

A. Healthcare personnel in any setting must comply with the State’s Guidance on Quarantine for Health Care Personnel (HCP) Exposed to SARS-CoV-2 and Return to Work for HCP with COVID-19, as described in AFL 21-08, as it may be amended from time to time.

B. Close Contacts who live or work in high-risk settings not covered by AFL 21-08 (e.g., emergency shelters, cooling and heating centers, homeless shelters, healthcare settings, long-term care centers and adult and senior care facilities, local correctional facilities, and detention centers) who are unvaccinated or not fully vaccinated, and have not been infected with COVID-19 within the prior 90 days are required to quarantine in accordance with the CDPH’s guidance titled “Guidance for Local Health Jurisdiction on Isolation and Quarantine of the General Public”, which may be found at https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Guidance-on-Isolation-and-Quarantine-forCOVID-19-Contact-Tracing.aspx as it may be amended from time to time.

C. Given the higher risk and impact of transmission of COVID-19 in high risk congregate living settings, people who live in Congregate Care Facilities, correctional facilities, or dormitories may be required by LBDHHS to complete a longer quarantine up to 10 days after their last close contact with a COVID-19 positive person and must adhere to any additional requirements issued by the CDPH, including those related to isolation, quarantine, testing, and vaccination.
D. For purposes of this Order, “Congregate Care Facilities” include the following facilities within the City: Adult Residential Care Facilities (ARF) all license types; Chronic Dialysis Clinic; Continuing Care Retirement Communities; Hospice Facilities; Intermediate Care Facilities of all license types; Psychiatric Health Facilities; Residential Care Facilities for the Elderly; Residential Facility Chronically Ill; Skilled Nursing Facilities (SNFs); and Social Rehabilitation Facilities.

IV. Miscellaneous

A. Day 0 of quarantine is the day of the last close contact the individual had with a COVID-19 positive person. Day 1 of quarantine begins the following day. Persons required to quarantine by this Order must follow all directions in the "Home Quarantine Guidance for Close Contacts to Coronavirus Disease 2019 (COVID-19)," which is available at www.longbeach.gov/healthorders.

B. Private and public K-12 schools within Long Beach must follow CDPH K-12 Guidance for quarantine protocols, and may implement modified quarantine and Group Tracing protocol for unvaccinated students in accordance with the CDPH’s guidance titled “COVID-19 Public Health Guidance for K-12 Schools in California, 2021-22 School Year”, which may be found at https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/K-12-Guidance-2021-22-School-Year.aspx, as it may be amended from time to time.

C. Early Childhood Education (ECE) centers and preschools must follow the CDPH Guidance for Child Care Providers and Programs for quarantine protocols may implement modified quarantine and Group Tracing for participants which may be found at https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Child-Care-Guidance.aspx#How%20to%20Respond%20to%20Exposure%20or%20Outbreaks%20Including%20Quarantine, as it may be amended from time to time.

D. In workplaces, most employers and businesses are subject to the Cal/OSHA COVID-19 Emergency Temporary Standards (ETS) and some to the Cal/OSHA Aerosol Transmissible Diseases Standards, and should consult those regulations for additional applicable requirements. The ETS allow local health jurisdictions to require more protective mandates.

V. Isolation Required if Any Person Develops Symptoms or Tests Positive for COVID-19

Any individual that develops symptoms must immediately self-isolate, seek COVID-19 testing, and contact their healthcare provider with any questions regarding their care. The requirements in this Section apply to fully vaccinated persons whether or not they have received a booster, unvaccinated persons, and persons previously infected with COVID-19 and applies regardless of testing or earlier quarantine release.

Any person who develops symptoms or tests positive for COVID-19 must follow the Long Beach Isolation Order. The Long Beach Isolation Order and a list of testing sites may be found at www.longbeach.com/covid19.
VI. Background and Purpose of this Order

The spread of Coronavirus Disease 2019 (COVID-19) remains a substantial threat to the public’s health. Long Beach is currently subject to a declared local health emergency and a proclaimed local emergency due to the COVID-19 pandemic, and the Governor of the State of California proclaimed a state of emergency. All people are at risk for becoming ill with COVID-19, but some people are more vulnerable to serious illness as a result of COVID-19 due to age or underlying health conditions.

The BA.2 variant, which is more transmissible than the original Omicron variant, is now the dominant strain in California and makes up over 90% of cases being reported. Recent evidence also shows that vaccine effectiveness against COVID-19 infection is decreasing over time without boosters. There is still a risk for new variants to emerge, and it is important to remain vigilant at this time. On December 27, 2021, the CDC updated their Isolation and Quarantine recommendations for the general public motivated by science that indicates the majority of COVID-19 transmission occurs within the first few days after contracting the virus. On April 6, 2022, the CDPH updated its guidance to no longer recommend quarantine for the general public, but to continue quarantine for certain individuals who live or work in high-risk settings.

The purpose of this Order is to help slow the spread of COVID-19, to protect individuals against serious illnesses and death, and to protect the health care system from a surge of cases into emergency rooms and hospitals. This Order is also issued to align with updated CDC and CDPH guidance, with a focus on testing and masking to best contain the more transmissible Omicron variant. However, COVID-19 vaccination and boosters remain the most important strategy to prevent serious illness and death from COVID-19.

Quarantine is used to keep someone who has been exposed to COVID-19 and might be infected away from others to prevent COVID-19 from spreading further. Since a significant number of COVID-19 infections are caused by people with no symptoms, quarantining people who have been exposed to COVID-19 is essential to stop the spread of COVID-19.

The CDC and CDPH currently still recommend a quarantine period of 10 days after COVID-19 exposure for those who are unvaccinated and in certain high-risk settings, based on estimates of the upper bounds of the COVID-19 incubation period. LBDHHS, like CDC and CDPH, recognizes the long duration of quarantine creates economic and personal hardship, impacts people’s compliance with quarantine, and may impact the willingness of cases to name close contacts. This Order is amended to align with updated CDPH Guidance Local Health Jurisdictions on Isolation and Quarantine of the General Public, which strongly recommends testing and masking after an exposure regardless of vaccination status, where eligible. This symptom-based strategy will prevent most, but not all, instances of secondary transmission.

This Order does not apply to government employees and other critical infrastructure workers, if the agency, in consultation with the Health Officer, has made a determination that due to CDC guidance that an alternate approach to COVID-19 transmission prevention is necessary in order to ensure continuity of critical services to the community.
VII. LEGAL AUTHORITY

This Order is made under the authority of California Health and Safety Code Sections 101040, 101475, 101085, 120175, 120215, 120220, and 120225. The Health Officer may take additional action(s), which may include civil detention or requiring a person to stay a health facility or other location to protect the public’s health if an individual who is subject to this Order violates or fails to comply with this Order.

Violation of this Order is a misdemeanor punishable by imprisonment, fine or both pursuant to California Health and Section Code Section 120275 et seq and Long Beach Municipal Code sections 8.120.030.A and 8.120.030.E.3. Further, pursuant to Section 41601 of the California Government Code, the Health Officer requests that the Chief of Police in the City of Long Beach ensure compliance with and enforcement of this Order. The violation of any provision of this Order constitutes an imminent threat and creates an immediate menace to public health.

In establishments and settings with active outbreaks, quarantine and isolation may be extended for additional days by Long Beach Health and Human Services outbreak investigators to help lower the risk of ongoing transmission at the site.

IT IS SO ORDERED:

Anissa Davis, MD, DrPH,
Health Officer, City of Long Beach
Date: April 21, 2022
PROMULGATION OF EMERGENCY REGULATIONS

As Director of Civil Defense for the City of Long Beach pursuant to Long Beach Municipal Code (“LBMC”) section 2.69.060.A, and in accordance with the provisions of LBMC Chapter 8.120, I am authorized to promulgate regulations for the protection of life and property as affected by the COVID-19 emergency pursuant to Government Code section 8634, and LBMC sections 2.69.070.A and 8.120.020. The following shall be in effect for the duration of the Long Beach Health Officer Order, HEALTH OFFICER ORDER FOR CONTROL OF COVID-19: Quarantine Order, issued above, which is incorporated in its entirety by reference.

The Long Beach Health Officer Order, HEALTH OFFICER ORDER FOR CONTROL OF COVID-19: Quarantine Order, shall be promulgated as a regulation for the protection of life and property.

Any person who, after notice, knowingly and willfully violates or refuses or neglects to conform to the above referenced lawfully issued Health Order shall be guilty of a misdemeanor punishable by a fine not to exceed one thousand dollars ($1,000), by imprisonment for a period not exceeding six (6) months, or by both such fine and imprisonment. (Long Beach Municipal Code sections 8.120.030.A and 8.120.030.E.3.)
