GROUNDS FOR DENIAL

The intent of Chapter 20.32 of the Subdivision Regulations that govern conversions is to provide increased opportunities for ownership for all segments of the population. Therefore, such conversions shall be permitted, provided that they shall comply with the action and minimum standards set forth in this Section for the class of conversion proposed. Those minimum standards represent the grounds upon which the Planning Commission could deny the conversion request and include the following:

Section 20.32.180 – Minimum Size. No conversion shall be permitted if more than 15% of the total number of units in the conversion have a unit size less than 450 square feet.

Section 20.32.170 – Consistency with the General Plan. The conversion of all projects for which building permits were issued after August 4, 1978, shall be consistent with the General Plan. The Planning Commission or City Council on appeal, may waive consistency with the General Plan if it finds that adequate provisions are made for a long-term maintenance of the building.

Section 20.32.160 – Energy Conservation Requirements. Certain minimum energy conservation standards shall be met or exceeded for all conversions prior to approval of the final map.

Section 20.32.150 – Building Security. Certain minimum building security provisions shall be provided for each unit.

Section(s) 20.32.130 & 20.32.140 – Parking. No less than one independently accessible parking space shall be permanently available to each dwelling unit. Where units are 2 or more bedrooms that parking requirement is 1.25 spaces per unit.

Section 20.32.120 – Combustion detection equipment. Combustion detection equipment must be provided each unit.

Section 20.32.110 - Sound Attenuation. Minimum standards of sound attenuation must be met.

Section 20.32.100 - Major System Correction. Any corrections or repairs reasonably necessary, to the major systems, within the next five years shall be provided for prior to approval of final map.

Section 20.32.090 – Code Compliance. Any building or safety violations relating to plumbing, fire, housing, electrical, earthquake, and property maintenance codes which may cause health or safety hazards shall be corrected prior to approval of the final map.

Section 20.32.085 – Harassment. Any action by the landlord which is intended to cause the tenant to quit the premises prior to the 180 day notice, including unreasonable rent increases, shall be considered harassment and shall be grounds for denial of the final map.

Section(s) 20.32.040 & 20.32.060 – Tenant Noticing. Any failure to comply with the requirements for tenant noticing could result in denial of the final map.

Section 20.32.050 – Tenant Option to Purchase. Failure to provide each tenant an exclusive right to contract for the purchase of an occupied unit, or other available units upon the same terms and conditions that such units will be initially offered to the general public for 90 days or more could result in the denial of the final map.

Other than the above, neither the Planning Commission nor the City Council have discretionary grounds to deny a request for Conversion, if the building complies with all physical requirements.
