NSP

**Plan Description:**

The NSP is intended to stabilize neighborhoods and stem the decline of housing values. The program calls for recipient cities and states to purchase and rehabilitate foreclosed or abandoned homes. Once these properties are rehabilitated, the City will sell them to qualified buyers that earn 120% or less of the average median income (AMI) salary. Because NSP funds must be allocated 18 months from receipt, the City Council will authorize the City Manager to execute all necessary documents and to acquire and dispose of properties related to the NSP

**Recovery Needs:**

NSP funds will be used to maximize and complement the City's overall ongoing investment of providing quality affordable housing to as many Long Beach residents as possible. The funds will also have the clear and pronounced effect of revitalizing and stabilizing Long Beach neighborhoods

The City's target areas for NSP program were developed pursuant to the HERA as outlined below:

- Greatest percentage of home foreclosure;
- Highest percentage of homes financed by a subprime mortgage related loan; and
- Areas identified as the most likely to face a significant rise in the rate of home foreclosures

## Progress Toward Activity Type Targets

## Progress Toward National Objective Targets

### Overall Progress Narrative:

As of the current period, 92% of NSP funds have been obligated. As of March 2010, the City has acquired a total of 12 properties. Of these properties, 9 are single-family homes, 2 are multi-unit dwellings, and 1 property will become a land bank.

#### Project Status:

Rehabilitation is complete or nearing completion on 6 single-family units and has begun on 2 additional single-family units. Bids for rehabilitation work have also been accepted for 2 single-family units. One single-family property continues to go through the historic preservation compliance process and is awaiting architectural suggestions and a compliant work write-up.

#### Impact on jobs:

The City and contractors believe that NSP expenditures-to-date have created and/or saved 35 jobs. Additionally, the City believes that the NSP program is stimulating the local economy and is having an indirect positive impact on jobs that support the construction sector via the purchase of construction materials and the use of local vendors.
